

CIRRICULUM VITAE

Artist Name: Lisa Rodden

Born: Sydney

Lives: NSW South Coast

ARTIST STATEMENT

Lisa continues her exploration of paper and its potential to reveal a story through the manipulation of colour and shadows. With precision and patience, beautiful works are painstakingly brought to life by cutting, painting and lifting the paper.

This body of work focuses on the sources and cycles of life in the form of growth, transformation and renewal. "There are blurred lines between beauty, resources and commodities as often they are one and the same. We don't often stop, observe and truly appreciate the backstory of something beautiful and seemingly simple which may have taken thousands of years to get here".
